

Cris, EA1KT visiting Las Vegas, NV from Madrid, Spain launched, TALARC balloon ALP40-E this morning, **November 28, 2024** from the Boulder City Dry Lakebed at 0805 am PST. The balloon and payload is similar to the ALP40-A balloon that circled the earth over 6 times in 74 days, well above 43,000'. ALP40-E was constructed and launched by Cris with some assistance from Tom, KB7HTA. The balloon can be tracked [here](#) or [here](#). It is transmitting WSPR telemetry on 10m and transmitting CW on 28.022 MHz. If you do a search on the [Reverse Beacon Network](#) for EA1KT you will see the stations receiving the balloon's CW signal.
