

## 3rd Quarter Las Vegas Mesh Breakfast

The breakfast was held at Winchell's Pub & Grill, 199 E Warm Springs Rd, Las Vegas, NV 89119 on June 7, 2025.

The following amateur radio operators were present: Steve Farinella (N6SFX), Robert Ambrose (N7GET), Frank Kostelac (N7ZEV), Wayne McGartlin (N7HWM), Tom Davis (KB7HTA), Don Hill (KE6BXT) and Bob Nelson (WA3PAD).

Frank reported that he is still working with the county to install a mesh node on Angel peak. Our request has been made to the county for a design review; nothing has been heard yet. He hopes to install an Ubiquiti Rocket M5/dish pointed toward Red Mountain and a 90° Ubiquiti Rocket M5 Sector pointed into North Las Vegas.

Frank would like to go up to Potosi to do some repairs on the tower camera and a few other things this summer, however he needs someone willing to climb the tower. If you can assist him, please let him know.

Tom reported the Red Mountain stationary camera pointed to the Northwest needs slight adjustment as it got knocked out of alignment. This should be added to the list of things to do for the next trip.

Dieter, KD6LVW has nothing new to report from the Moapa Valley Mesh Group.

Dale, WA6MZW asks that, when possible, please check-in for Mesh Monday. For more information on how to do this, see his weekly message.

Robert is still working on getting someone to adjust the antennas at the Pinnacle site.

Almost all the mesh nodes in the valley have been updated with the latest AREDN firmware.

Don is slowly moving all his mesh nodes (Super Node) to his new house with a Cox fiber connection.

Steven stated that there is possibly a new place in Boulder City for installing a mesh node. He will investigate it in the future.

Tom and Frank have been working with Dennis, KJ7ETX in Mesquite, NV to install a mesh tunnel, which will connect his location with the network at Tom's QTH.

There was some discussion about participating in ARRL Field Day. The known locations for Field Day activities were mentioned, Henderson – Elks Club, Nellis – Lee Canyon and LVRAC – Lee Canyon for anyone who would like to participate. There will be no group effort this year.

The Sunday Night Mesh NET attendance is down, so if at all possible, please check in and join in on the conversation.

Our next meeting will be on the first Saturday in October at the usual place. We hope to see you there!
